

Corallo Bed

Fernando and Humberto Campana

General description:

Bed made of an irregular interweaving steel wire, bent by hand and joined by thousand of weldings, totally cleaned, brushed and perfectly rounded off in order to achieve a sort of tactile softness and pleasantness. The bed is totally handmade and this makes each one of them a unique piece. Such a complex realization takes about 3 weeks. The golden finishing contains a percentage of pure 24 kt gold.

Technical description:

Structure in hand bent steel wire.
Galvanic gliding and transparent lacquer.
Slatted bed-base in coated plywood.
