

# Stand by Me

Francesco Binfaré

## Descrizione generale:

Due cuscini "intelligenti" modellabili individualmente fanno da testiera, aggiungendo ulteriore comfort alla soffice imbottitura che riveste l'intera struttura. Volumi generosi e rivestimenti disponibili nei tessuti della collezione. Massimo comfort. L'inventore del "cuscino intelligente" ha creato una testata con due cuscini/schienale che possono inclinarsi separatamente in diverse posizioni.

## Utilizzo:

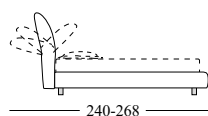

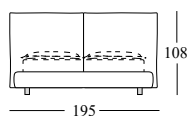

Perfetto per dormire, sognare, riposare. Ma anche per leggere, sfogliare il tablet, guardare la televisione. Stand by Me è la soluzione che rispecchia il mutare dei nostri comportamenti abitativi. Stand by Me è il letto ideale per qualsiasi stile. Sta bene in una camera da letto contemporanea così come in una classica. Le linee semplici e le proporzioni, insieme all'ampia gamma dei rivestimenti a disposizione, lo rendono elegante e accogliente sempre, di notte come di giorno.

## Descrizione tecnica:

Letto imbottito con cuscini "intelligenti" inclinabili individualmente. Struttura in metallo e legno, imbottitura in poliuretano espanso. Per appoggio materasso: pannello in legno rivestito in Lycra. Rivestimenti nei tessuti della collezione.
